Nassim Ait Dihim

PROFILE:

I am a student passionate about data analysis and visualization, driven by the desire to explore and highlight the essential insights they contain. My goal is to apply my analytical skills in a stimulating professional environment to contribute to innovative data-driven solutions.

SKILLS:

Analytical skills in a data environment

Programming Languages: Python, R, PHP, C / C++

Libraries & Frameworks: Pandas, Numpy, Scikit-learn, Django, Laravel, React JS, Scrapy

Data Visualization: Power BI, Matplotlib, Seaborn

Databases: MongoDB, MySQL

Tools & Methodologies: UML, Git, GitHub, Bitbucket

Networking: Computer Networks

EDUCATION

DUT (University Diploma of Technology) in Computer Engineering - With Honors

Bachelor's Degree in Infrastructures, Processing, and Analysis of Massive Data (BIG DATA) - In progress (2023 - 2024)

EXPERIENCE

December 2023 - January 2024

Completion of a decision support system (Part 1)

Preparation, Transformation, Manipulation, and Analysis of data using Pandas, Numpy, Matplotlib, and Seaborn

January 2023 - June 2023

Completion of a research laboratory management application

Technologies used: Laravel, PHP, Bootstrap, Mailgun, MySQL

July 2022 - August 2022

Internship

Completion of a mini-project for managing requests for free modules

Technologies used: PHP, Html, JavaScript, Css, Bootstrap, MySQL

PASSIONS

Sports, Music, Travel

LANGUAGES

English: Intermediate

French: Intermediate

Arabic: Native
